Subject: RE: number of sequences for 09/591,279

Exr. Steadman:

I checked the file: 47 sequences. Please contact me if you need any more information.

Thank you.

Subject: number of sequences for 09/591,279

Ms. Corrigan,

I am unable to determine the total number of sequences in the latest raw sequence listing (dated 11/20/02) for 09/591,279 as the document is illegible in IFW. I would like to know the total so that I can compare with the latest paper copy. Could you tell me how many total sequences there are? Thank you very much.
